

Power Pressure Washer 2200 PSI Electric 1.76 GPM Brushless Induction Technology - The Next Generation of Pressure Washer - 4X More Lifespan - Ultra Low Sound Power Efficient

## **2018 NEW HIGH-TECH INDUCTION MOTOR**

Guaranteed the best product in the market, made with the best latest technology and design. You will acquire an induction motor power washer up to 2200 PSI for the same price of the old brushed motor pressure washer. That is true! A much better product for the same amount of money. **GUARANTEED!** Besides, our Power Pressure Washer comes in a completely new design never seen before. Beautiful, Powerful, Portable: Just Perfect for the job!

## **POWER EFFICIENCY & 4 TIMES MORE LIFESPAN**

Induction motors generate less heat and require less current to generate higher power than universal (brushed) motors. This is another reason why our Power Pressure Washer is by far the best product in the market. In addition, the induction technology gives the product 4 times more lifespan! And you will NOT pay more for that!

## **IMPORTANT FEATURES**

The next generation of power washers come with a 30ft long power cord and 20ft long hose. It also includes a soap dispenser (not built in, tough). This pressure washer is equipped with a micro switch sensitive to water flow. This Total Stop System (TSS) senses water flow in the pump. When the trigger is released, water stops flowing through the pump. The TSS then automatically turns the motor off to protect the pump from overheating.

## **VERY LOW SOUND LEVEL**

Universal motors run at very high speeds and are loud. An induction motor pressure washer twice as powerful as a universal powered machine will still be quieter. You want to use your power washer any time without having problems with your neighbors, right? Another very good reason for you to buy the new 2018 Power Pressure Washer 2200 PSI Electric - The Next Generation of Pressure Washer.

**100% SATISFACTION GUARANTEED OR YOUR MONEY BACK:** for us, it is straight forward: if you, by any chance, do not like our products, please feel free to return them and we will refund you. You can do that anytime and we promise no hassle at all. We want your purchase experience with us to be as smooth as possible. No questions asked.
